^{* 20} tranches of the original tranche target of 40 were procured in the September 2022 auction. The additional 20 tranches were procured in the February 2023 auction.

** Due to the delayed BRA auction for the 2024/2025 delivery period, the 24-month product in the February 2023 auction was truncated to 12 months. The July 2023 auction was added to the schedule per PUCO approval to compensate for the truncated portion of the February 2023 auction tranches.
